### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Francis Hand on 12 April 2004.

The application has been amended as follows:

**In the Claims:**

Please cancel claims 22, 23, 25, and 26.

2. The following is an examiner's statement of reasons for allowance: The method and apparatus for measuring concentrations of water in an oil, gas, and water mixture where flow of said mixture is directed through a pipe having an excitation coil and a detector coil around the pipe in axially spaced relation, as well as all other limitations as disclosed in the independent claims is not disclosed nor deemed obvious in view of the prior art of record. The prior art does not teach such a device with the coils axially spaced from each other, which would be a unique feature of the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
